- * This quarterly summary of financial statements is not subject to quarterly review procedures by a Public Certified Accountant or an Audit Firm.
- * Explanation concerning appropriate use of forecasts of business performance and other notes: Forecasts of business performance and other forward-looking statements in this document are based on information currently available and certain assumptions that the Company considers reasonable at the time of preparation and are not intended as a promise that such forecasts will be achieved. Actual results may differ materially due to various causes. For information including the assumptions of the forecasts of business performance and notes on their use, see "(3) Forward-Looking Statements Including Forecasts of Future Consolidated Results" under "1. Qualitative Information on this Quarterly Financial Report" on p. 2 of the attached document.

1. Qualitative Information on this Quarterly Financial Report

(1) Operating Results

During this period, Japan's economy has been in an extremely severe situation owing to worsening corporate earnings and shrinking consumer demand affected by the spread of COVID-19 at home and abroad. Following the lifting of the state-of-emergency declaration, the economy restarted and has been expected to recover to a certain degree. However, as there is strong concern about the second wave of COVID-19, uncertainty over the economy still remains.

Among the retail industry, we, the fashion industry, were confronted with a continued difficult management environment where stores were forced to shorten operating hours or to close in most commercial facilities for a long period, especially during April and May owing to the state-of-emergency declaration and requests to refrain from unnecessary and non-urgent outings by the national and local governments. In addition, as people have been refraining from going outside, the demand for goods other than the bare necessities of life has become extremely low.

Under such conditions, being strongly affected by temporary closures of commercial facilities and falling consumer consumption, the Sac's Bar Group's net sales in the first quarter of this consolidated fiscal year were JPY 5,467 million (down 57.9% YoY), which significantly decreased compared with the first quarter of the previous year. Accordingly, the Group recorded an operating loss of JPY 750 million (operating profit of JPY 744 for the first quarter of the previous year), an ordinary loss of JPY 725 million (ordinary profit of JPY 786 for the first quarter of the previous year), and loss attributable to owners of parent of JPY 728 million (profit attributable to owners of parent of JPY 500 million for the first quarter of the previous year).

Since the Group employs only one reporting segment, it does not present results differentiated by business segment.

Conditions by business section are outlined below. Figures shown below are after elimination of transactions conducted within business sections but before elimination of transactions between business sections.

<Retail and Other Businesses>

In the retail business, while we opened seven new stores, we also closed four stores. As a result, the total number of stores at the end of this period became 643.

Net sales of the businesses drastically decreased (down 56.2% YoY) to JPY 5,350 million owing to the factors of a sharp drop in consumer sentiment, long-term temporary closures of commercial facilities and shortened operating hours. While sales of all products recorded a considerable drop, in particular, the sales of travel bags drastically fell by 89.4% YoY because outbound and inbound demand disappeared and domestic demands such as business trip and private travel seriously diminished, too, owing to the government's request to refrain from moving across prefectures. On the other hand, small wallets sold relatively well, with sales showing a smaller decline of 37.5% YoY as well as the sales of imported bags with a decrease of 41.7% YoY thanks to the promotion of discounted products. The sales of other products significantly decreased by approximately 60%.

Gross profit margin decreased by 1.9 percentage points YoY to 46.6% as the Company has promoted sales at discount prices of seasonal products, private-brand bags and imported bags to make up the opportunity loss due to the long-term temporary closure of stores and to stimulate consumer demand. On the other hand, the selling, general, and administrative (SG&A) expense ratio increased by 17.2 percentage points YoY to 60.4 % because of the significant drop in sales.

<Manufacturing, Wholesaling Businesses>

In the manufacturing and wholesaling businesses, sales of carry-on luggage bags, which are our main products, were devastated owing to a serious drop in travel demand caused by the spread of COVID-19.

As a result, net sales in these businesses totaled JPY 126 million (down 86.0% YoY).

(2) Financial Position

(Total Assets)

Total assets at the end of the first quarter of this consolidated fiscal year were down JPY 959 million from the end of the previous consolidated financial year to JPY 39,149 million. This was due mainly to factors such as a decrease of JPY 1,029 million in cash and deposits, and a decrease of JPY 540 million in merchandise and finished goods, despite an increase of JPY 410 in differed tax assets.

(Liabilities)

Total liabilities at the end of the first quarter of this consolidated fiscal year were up JPY 654 million from the end of the previous consolidated financial year to JPY 11,522 million. This was due mainly to factors such a decrease of JPY 1,738 million in notes and accounts payable-trade and an increase of JPY 2,500 million in short-term loans payable.

(Net Assets)

Net assets at the end of the first quarter of this consolidated fiscal year were down JPY 1,613 million from the end of the previous consolidated financial year to JPY 27,626 million. This reflected the recording of JPY 728 million in loss attributable to owners of parent, offsetting a reduction due to the payment of JPY 871 million in dividends of surplus.

(Equity Ratio)

The equity ratio stood at 70.6% as of the end of the first quarter of this consolidated fiscal year, down 2.3 percentage points from the end of the previous consolidated financial year.

(3) Forward-Looking Statements Including Forecasts of Future Consolidated Results

The Company announces the forecasts of consolidated operating results and dividends for the fiscal year ending March 31, 2021, which were not made at the time of the last announcement because it was difficult to make a reasonable estimate about the impact of COVID-19 at the time, by summarizing and estimating its impact on our group companies based on the information and assumptions available at the current point of time. For details, please see the "Notice of Forecasts of Consolidated Operating Results and Dividends for Fiscal Year Ending March 31, 2021, and Recording of Extraordinary Income and Loss" released on July 30, 2020.
