## 1. Qualitative Information on this Quarterly Financial Report

### (1) Operating Results

In May, the Japanese Government downgraded COVID-19 to a Category V Infectious Disease as stipulated in the Infectious Diseases Control Law, and social and economic activities significantly returned to normal levels. During the current consolidated cumulative third quarter, the Japanese economy continued showing a trend of gradual recovery, mainly with increases in domestic demand. The recovery of demand from inbound tourists was another factor contributing to the economic recovery. Yet, due to the continued price increases resulting from the sharp rises in resource prices and the weak yen, the future economy continued to be uncertain.

As for the retail industry, people's mobility become greater, with measures restricting people's activities being relaxed or removed, and their consumption showed some recovery. The prices of daily essentials, however, increased one after another, and such rapid price increases surpassed wage increases. With the uncertain future, consumers were more careful in spending money and the economy continued to be unpredictable.

Our net sales during the current consolidated cumulative third quarter were JPY 37,983 million, an increase of 15.1 percent from the same period in the previous fiscal year. Our operating income was JPY 2,615 million, an increase of 88.5 percent from the same period in the previous fiscal year. Our ordinary income was JPY 2,677 million, an increase of 78.6 percent from the same period in the previous fiscal year. Our guarterly net income attributable to owners of the parent company was JPY 1,698 million, an increase of 92.8 percent from the same period in the previous fiscal year.

Since the reporting segment of our group is a single segment, information with respect to each segment is not provided. Our performance with respect to each business division is stated below. Figures after deleting transactions within each division, but before deleting transactions between divisions, are stated.

#### <Retail and Other Businesses>

As for our retail business, we opened twelve new stores and closed sixteen. As of the end of the current consolidated third quarter, we had 601 stores in total.

The impact of the COVID-19 pandemic decreased. In October 2022, we acquired all shares of GEAR's JAM Co., Ltd., and the sales of all twenty-four GEAR's JAM stores are now included in our sales. The sales from inbound tourists increased. Thanks to these, our net sales from the retail business increased to JPY 34,969 million, an increase of 11.9 percent from the same period in the previous fiscal year. With the sales of all GEAR's JAM stores being included in our men's bag sales and the recovery in business demand, the sales of men's bags increased by 21.2 percent from the same period in the previous fiscal year. With the significant increase in domestic and overseas trips, including business trips, and the increase in demand from inbound tourists, the sales of travel bags increased significantly by 47.1 percent compared to the same period in the previous fiscal year. Concerning our private brand (PB) and national private brand (NPB) products, the sales of PB and NPB suitcases increased significantly. We have expanded our PB and NPB product lines for both men's and women's products, and also strengthened our sales work for such products. With these, the sales of these products increased by 29.1 percent compared to the same period in the previous fiscal year. For casual bags, however, the sales increase was slight, only a 4.6 percent increase compared to the same period in the previous fiscal year. For handbags, the sales of lower-priced products decreased, causing the sales to decrease by 11.7 percent compared to the same period in the previous fiscal year. For miscellaneous goods, we have strengthened our sales work for umbrellas. Due to the sluggish sales of cold-weather clothing items and accessories, however, the sales of miscellaneous goods decreased by 6.8 percent compared to the same period in the previous fiscal year. For wallets, the number of products sold decreased, and the sales of wallets decreased by 3.8 percent compared to the same period in the previous fiscal year. For imported bags, we imported fewer products due to the weak yen, and the sales decreased by 25.7 percent compared to the same period in the previous fiscal year.

With the increase in the sales of high-margin PB and NPB products and travel bags as well as the impact of revising and raising the prices of inventory goods, the ratio of gross profit to net sales for the current consolidated cumulative third quarter increased by 0.6 percent to 50.3 percent compared to the same

period in the previous fiscal year. With the sales increase and cost reduction, the ratio of selling, general and administrative expenses decreased by 1.6 percent to 43.9 percent compared to the same period in the previous fiscal year.

<Manufacturing, Wholesaling Businesses>

For our manufacturing and wholesale business, the sales of suitcases, which are our main product, increased significantly. This was because trips, including business trips and visiting parents, increased significantly and the demand from inbound tourists also continued to increase.

As the result of the above, the net sales of our manufacturing and wholesale business division were JPY 3,686 million, an increase of 63.4 percent compared to the same period in the previous fiscal year.
